EDUCATION

St. Joseph's University, Brooklyn, NY May 2025
B.S. in Computer Science & Mathematics, B.A. in Mathematics | Summa Cum Laude | GPA: 3.8/4.0 (Top 5%) | Dean's List, all 4 years
Relevant Coursework: Data Structures and Algorithms, Software Engineering, Database Systems, Advanced Data Science, Advanced Statistics

EXPERIENCE

Technology and Robotics Instructor | St. Edmund's Prep School, Brooklyn, NY Aug 2025 to Present

- Spotted a gap in hands-on tech learning and launched the school's first STEM and Robotics program from zero, owning curriculum, tools, and roadmap for 120 K-8 students.
- Planned and shipped student projects in Agile-inspired sprints, teaching foundations in Java, Python, and HTML.
- Lead a 15-member Robotics Club from concept to coded prototype to presentation using LEGO SPIKE Prime, Tinkercad, and Blender; also triage 20+ tech tickets and audit 96 Chromebooks each semester.

Undergraduate Researcher | St. Joseph's University, Brooklyn, NY May 2023 to Aug 2023

- Partnered with the Mathematics Department Chair to build an R data pipeline (dplyr, ggplot2) analyzing behavior across 24 subjects, surfacing a significant daytime vs. nighttime difference in alcohol consumption.
- Presented findings at 2 academic conferences and earned a \$4,000 scholarship for the work.

Peer Tutor, Mathematics and Computer Science | St. Joseph's University Sept 2023 to May 2025

- Coached a median of 10 students weekly in 300-level Math and CS, helping 50+ students raise test scores by up to 75%.

Admissions Representative | St. Joseph's University Jan 2023 to May 2025

- Led tours for 300+ prospective families and logged 1,000+ records in Slate CRM for admissions analytics; earned Employee of the Month and top tour metrics.

PROJECTS

Heart Attack Risk Prediction | R, Machine Learning | [GitHub](#)

- Built and compared 3 machine learning models in R (Random Forest, K-Nearest Neighbors, Linear Regression) to predict heart attack risk across 6,500 patient records.
- Preprocessed data, analyzed risk factors like cholesterol, BMI, and exercise, and turned model results into insights for early detection.

LEADERSHIP

Founder and President, Girls Who Code College Loop | St. Joseph's University Sept 2023 to May 2025

- Founded the university's first chapter and ran bi-semester coding workshops for female high school students, contributing to a 14% increase in female enrollment in Math and CS.

SKILLS

Technical: Python, Java, JavaScript, SQL, R, HTML, Google Cloud Platform, Linux, AI-assisted development
Data and Product: Tableau, Power BI, Excel, dashboard reporting, Agile planning, market research, survey and trend analysis

ACHIEVEMENTS

Research Presenter, OurCS at Carnegie Mellon (2024) | Grace Hopper Celebration Scholar (2023) | PyData Diversity Scholar (2023)
